We Are HIRING

FAMILY LAW ATTORNEY

We are looking for the future leaders in family law to join our team!

Are you an incredible negotiator but also fierce in the courtroom when negotiations break down? Do you have the ability to empathize with the up and down feelings of someone who is going through a divorce or custody case? Can you take the weight off someone's shoulders and let them know you've got their back? Do you know the ins and outs of divorce and custody law in Massachusetts? Are you quick on your toes and can swing with the punches in the family court arena?

Our firm is seeking experienced and exceptional family law attorneys to join our team as soon as possible. We consider family law experience to include (but not be limited to) drafting all types of pleadings (complaints, motions, affidavits, pretrial memorandum, etc.), creating both short and long form financial statements, sending out discovery requests and responses, conducting depositions, arguing in court on everything from a motion hearing to a trial, and keeping a client informed and educated along the way.

We Are HIRING

FAMILY LAW ATTORNEY

This is a position where you will never be bored ! The variety of cases we have always provides the ability to jump into the new issues that always seem to pop up. We deal with many "high conflict" cases so a strong knowledge relating to issues such as narcissism, domestic abuse, manipulation and control, substance abuse, parental alienation, and trauma survivors is crucial. If you need more help in those areas though, we can provide additional support and training.

Our firm is constantly growing, so there will be opportunity for advancement depending on what you desire your future career to look like. If you have a book of business, that's great, but we can provide all the clients you need to meet our firm's billable and collection requirements. We have a great support team (supervising attorneys, paralegals, client experience coach, and administrators), and we are proud of how everyone works together to make sure everyone can do their best in their specific position.

Our offices are located in Hanover and Westborough, but we collectively practice in a majority of the counties in Massachusetts, so the ability to travel to court (and be there at least 15 minutes before it starts) is required. As long as your work is getting done at the quality we expect, you'd have the flexibility of working virtually but if you work best in an office, we can accommodate that as well.

OUR STORY

The CEO of our firm decided to become a lawyer after she went through her own divorce and came out with little more than a high school diploma and her three kids under the age of 6. Seeing a system that could use a lot of change, she decided to become an attorney and be the change. She started at community college, went to undergrad, and then to law school. After gaining litigation experience, she opened O'Connor Family Law in 2016. We have continued to thrive since then with a continuously growing firm family.

Our vision is to create an experience for people going through divorce and custody that helps put them on a path where they not only walk away with a killer outcome, but also with guidance on taking responsibility for how they view things and react to things so they do not just end up in the same situation they were in when they came to us.

The firm's mission is to become the largest and most respected family law firm in Massachusetts as well as to figure out how to help fix a broken system.
